

THEMATIC PROGRAMME	(THEMATIC) SUB-PROGRAMME
Quality of Life	Human Health
	Quality and Safe Nourishment of Population
	Landscape and Settlements of the Future
	Environment and Protection of Natural Resources
Information Society	Intelligent Systems for Decision Making, Management and Diagnostics
	Knowledge and Information Management
	Communication Infrastructure and Technology
	Computer Modelling and Design of Systems and Processes
Competitiveness at Sustainable Development	Production Processes and Systems
	Safe and Economic Transport
	Buildings and Constructions
	Advanced Materials
	Emerging Technologies
	Utilization of Natural Resources
Energy for Economy and Society	Safe and Effective Nuclear Power Engineering
	Power- and Non-Power-Producing Utilization of Coal and Carbonaceous Raw Materials
	Rational Use of Energy and Renewable Energy Sources
Modern Society and Its Changes	Performance-Oriented, Safe and European-Integrated Society
	Social Cohesion, Social Differentiation and National Identity
